

Appendix A

Membership Fee Comparison

In terms of comparisons with other sports, we still compare very favourably with the cost of becoming a member. Here is a sample of other sports:

	Adult £	Junior £
Basketball England current	13.00	7.00
Basketball England new	15.00*	8.50*
Wheelchair basketball	30.00	15.00
Netball	36.00	18.00
Gymnastics	40.00	20.00
Swimming (competitive membership)	26.00	26.00

*Important note on membership: Basketball England is the only NGB in the country to offer direct financial assistance to members who are on low income (up to £100).

Other members benefits

In addition to the services, programmes and support identified in the main communication, here is a list of other member benefits including some we are proposing should provide as part of any future potential membership contribution to GB teams.

Insurance: £10 million of public liability cover is available for all member clubs. Basketball England has also invested in management liability cover for clubs, up to the value of £2 million, which covers boards of directors and trustees. Policies can also be arranged to include employee insurance on an ad-hoc basis, should it be required for those clubs that have fully paid staff, at very competitive rates. We have also introduced the insurance helpline to improve the direct management of queries.

Competitions and giveaways Members will be able to access numerous competitions, prize draws, giveaways and early-bird offers on events through their Basketball England membership and our Whatsapp newsletter.

Howden's Sport Benefits New for the 2019/20 season, members will also be able to access Howden's Sport Benefits, an online shopping discount code, available through Basketball England insurance providers (Howden's) for a number of brands. There will be more information on this in the coming weeks.

Supplier discounts We are currently exploring a range of supplier discounts for BE clubs and members for a range of services. We will have more news on this in the coming months.
